

Farrar's Building Diversity Data – June/July 2021

Chambers undertook a diversity data collection exercise in June/July 2021.

We are a relatively small Chambers and so we have divided our published data only as between barrister members of Chambers and staff members, in order to enable us to publish as much data as possible.

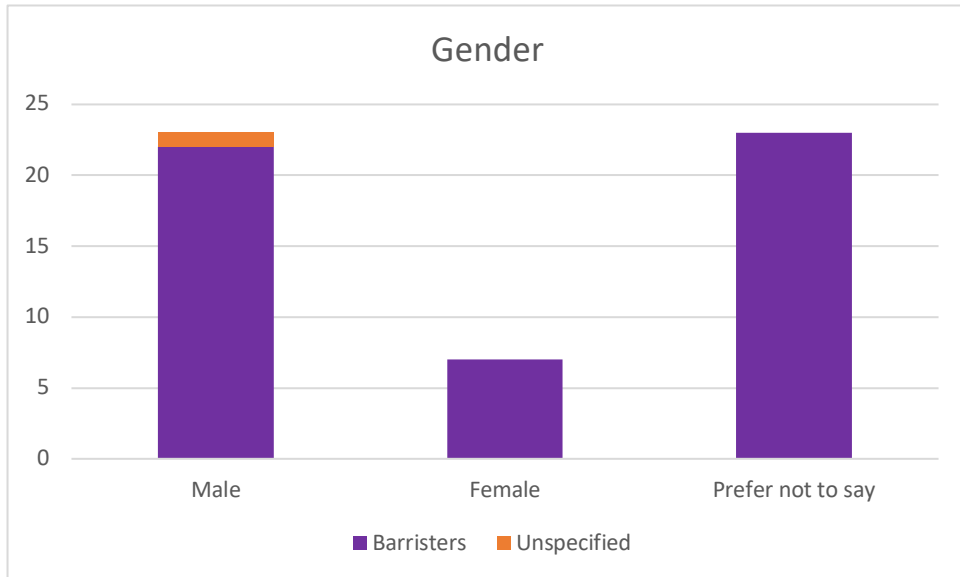

Data included under 'prefer not to say' includes those who did not respond to the survey or to that question in the survey.

Given that one person who responded did not specify whether they were a barrister or a staff member, the number of persons in the category of 'prefer not to say' may be incorrect to the variance of 1.

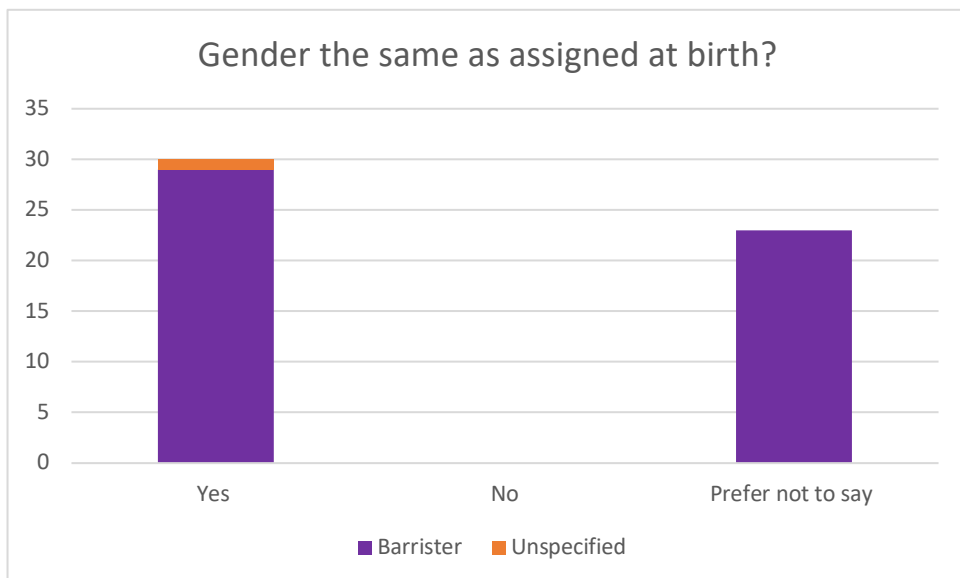

Where there is no data for staff members included in the published data, it is because we are unable to publish it due to the small sample size.
